SLICK

SMART CAR KEY SHARING

By moving physical car keys into the cloud, the sharing economy enters the domain of cars, mobility & transportation. **SLICK**, powered by *Continental's Key as a Service (KaaS)*, enables a whole suite of seamless mobility solutions with vehicle access control with car keys on your mobile device!

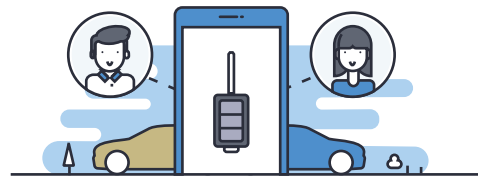

Enable Access To Vehicles Through A Mobile App

- › Facilitate car rentals or car sharing by removing the need of managing physical keys
- › Share access of your vehicles for package deliveries or vehicle grooming

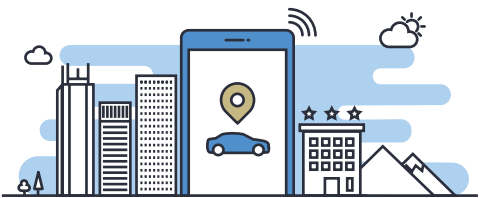

Unlock your car with your phone

Remove the need of managing physical keys and loss key occurrences.

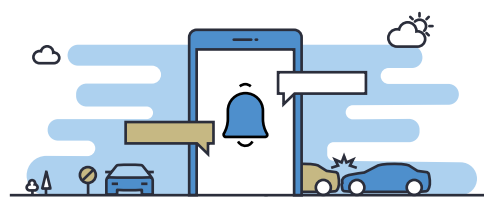

Share your car key with your loved ones

Best suited for family cars, group and company shared cars.

Track your car's location & driver details in real time

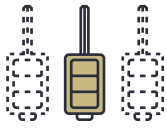

Keep an eye on shared users and your car's location with real time push notifications.

Be notified of emergency car events

Receive real-time notifications and location details of speeding, impact and other important car events.

FEATURES

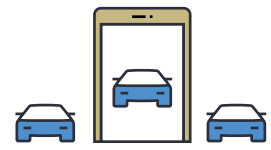

Unlimited Sharing Keys

Share keys with family and friends to give them access to your car. No limits on number of shared users.

Full Trip History

Every trip is recorded. We store location, speed and usage analysis data for your reference. Forever.

Multiple Car Keys, One App

Keep things simple by syncing all your car keys into a single mobile application. Never get locked out of your car again.

Real-time Vehicle Tracking

Know where your vehicles are in real-time with updates on vehicle locations and driver statuses on your mobile app.

Speeding & Collision Alerts

Receive real time notifications and location details of speeding, impact car events.

Custom Notifications

With geo-fencing, set up boundaries around areas and receive alerts whenever your car enters or leaves.
